# TSM Labeling Guide

**Rev 0**
**Feb., 5, 2024**

**Shipments to TSM**, **Champ, and MexPar** –

**External package label -**

- Shipment packaging (pallet or box) should have labels on at least two sides and labels must clearly show TSM name, TSM PO number for the order, PN, Qty, and supplier PN on supplier's standard label size.

- External packaging label should include human readable + bar code that contains TSM PO#, TSM, Champ, or MexPar, PN, Qty, manufacturing date code in ww/yyyy format (week of the year + year), country of origin (2 letters), and supplier PN on supplier's standard label size.

- Note, above labeling requirement does not apply to private labeling.

**Item labeling requirements** –

- Item labeling should be human readable + barcode containing TSM, Champ, or MexPar PN, manufacturing date code in ww/yyyy format (week of the year + year), country of origin (2 letters), and supplier PN on supplier's standard label size.

- Note, above labeling requirement does not apply to private labeling.
